Index to
JOURNAL OF APPLIED MECHANICS
Volume 27, 1960

The Journal of Applied Mechanics includes papers contributed to the Transactions of the ASME by the Applied Mechanics Division of the ASME. The Journal of Applied Mechanics for 1959 was issued in March, June, September, and December.

Issue	Page Numbers
March	1–222
June	223–380
September	381–602
December	603–760

A

ABBASSI, M. M.
Second approximation for buckling loads of tapered struts ... 211
Stresses in curved beams of noncircular center line ... 445

ABLOW, C. M.
On the natural modes and their stability in nonlinear two-degree-of-freedom sysems (D) ... 220

ABRAMSON, H. N.
Production of a rotation in a confined liquid through translational motion of the boundaries (D) ... 365
Transient heat conduction in a rod of finite length with variable thermal properties ... 617

ADAMS, D. P.
Approximate synthesis of spatial linkages (D) ... 757

AERODYNAMICS. *See also* GAS DYNAMICS
Hypersonic aerodynamics (BR) ... 378
Incompressible aerodynamics (BR) ... 760
Two-dimensional gas jets ... 603

AGGARWALA, B. D.
Bending of an isotropic triangular plate, two of whose edges are simply supported and the third clamped ... 357

AIR TRANSPORT
Motion and loading of a hinged ramp which supports a sliding mass ... 177, (D) 753

AIRPLANE WINGS
Approximate analysis of the influence of aerodynamic heating and initial twist on the torsional stiffness of thin wings ... 332
Correlation of theoretical and photothermoelastic results on thermal stresses in idealized wing structures ... 79

AIRY STRESS FUNCTIONS. *See* ELASTICITY

ALEXANDER, J. M.
Mechanics of the sheet-bending process (D) ... 756

ANDERSON, R. L.
Earth motion beneath a prescribed boundary displacement ... 120

APELAND, KRISTOFFER
Note on the stability problem of shallow translational shells ... 586

ARMENÀKAS, A. E.
Shear buckling of bars ... 455

ARNOLD, F. R.
Analysis of a nonlinear mechanical system with three degrees of freedom (D) ... 593

ARPACI, V. S.
Transient conduction in coaxial cylinders with relative motion and heat generation ... 623

ATKINSON, C. P.
On the natural modes and their stability in nonlinear two-degree-of-freedom systems (AC) ... 220

ATSUMI, AKIRA
Stresses in a circular cylinder having an infinite row of spherical cavities under tension ... 87, 754

B

BAKER, W. E.
Elastic-plastic response of thin spherical shells to internal blast loading ... 139, 751
Modeling of large transient elastic and plastic deformations of structures subjected to blast loading ... 521

BALTRUKONIS, J. H.
Free, transverse vibrations of a solid elastic mass in an infinitely long, rigid, circular-cylindrical tank ... 663

BARREKETTE, E. S.
Thermoelastic stresses in beams ... 465

BARS. *See also* BEAMS, ELASTICITY, WAVE MECHANICS
Shear buckling of bars ... 455

BEAMS
Additional deflection of a cantilever due to the elasticity of the support ... 461
Buckling of a beam on a number of elastic restraints ... 210
Coupled bending and torsional vibrations of restrained thin-walled beams ... 739
Dominance of shear stresses in early stages of impulsive motion of beams ... 132
Effect of small hub-radius change on bending frequencies of a rotating beam ... 548
Forced lateral vibration of a uniform cantilever beam with internal and external damping ... 551
On the effect of shear on plastic deformation of beams under transverse impact loading ... 107
Stresses in curved beams of noncircular center line ... 445
Thermoelastic stresses in beams ... 465
Viscous damping in flexural vibrations of bars (D) ... 361

BEARINGS
Note on the hydrodynamic pocket bearing ... 590
On the compressibility effects of the lubricant for two-dimensional slider bearings ... 609
Stability of a turbine-generator rotor including the effects of certain types of steam and bearing excitations ... 410
Study of the stability of externally pressurized gas bearings ... 250
Theory of lubrication with turbulent flow and its application to slider bearings ... 1, (D) 598

BELLOWS
Effect of pressure on the bending characteristics of an actuator system ... 429

BERGMAN, K. L.
Simplified analysis of a thrust-augmentation system ... 358

BERLOT, R. R.
Production of rotation in a confined liquid through translational motion of the boundaries (AC) ... 365

BERMAN, IRWIN
Expansion of thick-walled cylinders fabricated from cold bent plates ... 505

BEYER, R. A.
Approximate synthesis of spatial linkages (D) ... 757

BLAST. *See* WAVE MECHANICS

BLAST LOADING. *See* SHOCK

BLEICH, H. H.
Dominance of shear stresses in early stages of impulsive motion of beams ... 132

BOGDANOFF, J. L.
Effect of small hub-radius change on bending frequencies of a rotating beam ... 548

BOLEY, B. A.
On a dynamical Saint Venant principle ... 74

BOOK REVIEWS
Advances in applied mechanics, volume 6 ... 759
Calcolo delle volte cilindriche circolari sottili ... 602
Compact heat exchangers ... 377

BOOK REVIEWS (*continued*)
Design and performance of gas turbine power plants ... 601
Dynamics of frame structures ... 221
Einfuhrung in die Spannungsoptik ... 600
Engineering thermodynamics ... 221
Evaporation and droplet growth in gaseous media ... 759
Flames, their structure, radiation, and temperature ... 600
Handbook of supersonic aerodynamics; Section 16, Mechanics of rarefied gases ... 601
Heat and mass transfer ... 222
Hypersonic aerodynamics ... 378
Hypersonic flow theory ... 378
Hyperstatic structures, Vol. 1 ... 377
Incompressible aerodynamics ... 760
Introduction to plasticity ... 221
Introduction to the physical theories of equilibrium thermostatics and irreversible thermodynamics ... 599
Mechanism and motion ... 377
Plastic analysis of structures ... 378
Praktische Spannungsoptik ... 379
Servomechanisms and regulating system design ... 599
Statistical physics ... 379
Theory of linear viscoelasticity ... 760
Turbulence ... 601
Turbulent flows and heat transfer ... 379

BORG, S. F.
Rupture instability of plane membranes and solids ... 501

BOUNDARY LAYER
Some preliminary results of visual studies of the flow of the wall layers of the turbulent boundary layer (D) ... 213
Velocity and temperature fluctuation measurements in a turbulent boundary layer downstream of a stepwise discontinuity in wall temperature (D) ... 373

BRODERG, K. B.
Transient analysis of stress-wave penetration in plates (D) ... 366

BROCK, J. S.
Relation between stress concentration and boundary displacement for simple openings ... 356

BROWN, R. A. S.
Thermal transfer in turbulent gas streams. Effect of turbulence on local transport from spheres ... 393

BUCKLING
Buckling and deflection of isosceles-triangular plates ... 207
Buckling of a beam on a number of elastic restraints ... 210
Buckling of circular cones under axial compression ... 458
Effect of pressure on the bending characteristics of an actuator system ... 429
Elastic instability of rectangular sandwich panel of orthotropic core with different face thicknesses and materials ... 474
Method for investigating certain eigenvalue problems of the buckling and vibration of plates ... 557
Note on the stability problem of shallow translational shells ... 586
On the elastic bending of columns due to dynamic axial forces including effects of axial inertia ... 125, (D) 759
Postbuckling behavior of rectangular plates with small initial curvature loaded in edge compression ... 335
Second approximation for buckling loads of tapered struts ... 211
Shear buckling of bars ... 455

BUDIANSKY, BERNARD
Plastic stress concentration at a circular hole in an infinite sheet subjected to equal biaxial tension ... 59

(AC) denotes Author's Closure; (BR) Book Review; (D) Discussion of a paper.

C

CABLES
Elastic flexible cable in plane motion under tension (D) ... 598

CALLEN, HERBERT B. (author)
Introduction to the physical theories of equilibrium thermostatics and irreversible thermodynamics (BR) ... 599

CAPELLO, ANDREA
Transients in simple undamped oscillators under inertial disturbances (D) ... 216

CARRIER, G. F.
On the annular damper for a freely precessing gyroscope ... 237

CASCADES. *See* FLOW OF FLUIDS

CAUGHEY, T. K.
Classical normal modes in damped linear dynamic systems ... 269
Forced oscillations of a semi-infinite rod exhibiting weak bilinear hysteresis ... 644
Random excitation of a system with bilinear hysteresis ... 649
Random excitation of loaded nonlinear string ... 575
Response of a nonlinear string to random loading (AC) ... 370
Sinusoidal excitation of a system with bilinear hysteresis ... 640
Steady-state undamped vibrations of a class of nonlinear discrete systems (D) ... 756
Subharmonic oscillations of a pendulum (D) ... 754

CHAINS. *See* KINEMATICS

CHANG, C. C.
Elastic instability of rectangular sandwich panel of orthotropic core with different face thicknesses and materials ... 474

CHAO, CHI-CHANG
Dynamical response of an elastic half-space to tangential surface loadings ... 559

CHENG, D. H.
Junction problem of solid-slotted cylindrical shells ... 343

CHESTNUT, HAROLD (author)
Servomechanisms and regulating system design (BR) ... 599

CHU, W. H.
Transient heat conduction in a rod of finite length with variable thermal properties ... 617

COBB, P. R.
On the use of nonsinusoidal approximating functions for nonlinear oscillation problems ... 579

COHEN, M. J.
Two-dimensional gas jets ... 603

COLE, E. H. (author)
Engineering thermodynamics (BR) ... 221

COLUMNS
Nonlinear creep deformations of columns of rectangular cross section (D) ... 371
On the elastic bending of columns due to dynamic axial forces including effects of axial inertia ... 125, (D) 759

COMBUSTION. *See* FLAMES

CONES. *See* BUCKLING

CONWAY, H. D.
Approximate analysis of certain boundary-value problems ... 275
Elastic-plastic bending of curved bars of constant and variable thickness ... 733
Method for investigating certain eigenvalue problems of the buckling and vibration of plates ... 557
Torsion of prismatical rods with isosceles-triangle and other cross sections ... 209

COWPER, G. R.
Elastoplastic thick-walled sphere subjected to a radial temperature gradient ... 496

CREEP OF MATERIALS
Nonlinear creep determinations of columns of rectangular cross section (D) ... 371

CROSSLEY, F. R. E.
Method of numerical evaluation of a large determinant ... 350

CYLINDERS. *See also* WAVE MECHANICS
Expansion of thick-walled cylinders fabricated from cold bent plates ... 505
Relaxation of a cylinder on a rigid shaft ... 41
Transient and residual thermal stresses in an elastic-plastic cylinder ... 481

(AC) denotes Author's Closure; (BR) Book Review; (D) Discussion of a paper.

D

DAHL, N. C.
Collapse loads of rings and flanges under uniform twisting moment and radial force (D) ... 219

DALLY, J. W.
Photoelastic approach to transient stress problems employing low-modulus materials (AC) ... 369

DAMPING. *See* GYROSCOPES

DAVIDS, NORMAN
Transient analysis of stress-wave penetration in plates (AC) ... 367

DAVIS, E. A.
Relaxation of a cylinder on a rigid shaft ... 41

DEFORMATION. *See also* STRUCTURES
Earth motion beneath a prescribed boundary displacement ... 120
Effect of shear deformations on the bending of rectangular plates ... 54, (D) 594
Expansion of thick-walled cylinders fabricated from cold bent plates ... 505
Half-space under pressure distributed over an elliptical portion of its plane boundary ... 111
Mechanics of the sheet-bending process ... 54, (D) 756
New theory of elastic sandwich plates—one-dimensional case (D) ... 374
On the effect of shear on plastic deformation of beams under transverse impact loading ... 107
Plastic stress concentration at a circular hole in an infinite sheet subjected to equal biaxial tension ... 59
Stresses in the plastic range around a normally loaded circular hole in an infinite sheet ... 65

DENAVIT, J.
Approximate synthesis of spatial linkages ... 201, 758

DESIGN DATA AND METHODS
Elastic-plastic bending of curved bars of constant and variable thickness ... 733

DERESIEWICZ, H.
Half-space under pressure distributed over an elliptical portion of its plane boundary ... 111

DIFFUSERS
Simplified analysis of a thrust-augmentation system ... 358

DIMAGGIO, FRANK L.
Dynamics of frame structure (BR) ... 221

DISKS. *See also* FLOW OF FLUIDS, PLATES, STRESSES AND STRAINS
Strain-hardening solutions to axisymmetric disks and tubes ... 45

DISLOCATION. *See* ELASTICITY

DORNIG, ANTONGIULIO
Transients in simple undamped oscillators under inertial disturbances (AC) ... 218

DRAKE, ROBERT M., (author)
Heat and mass transfer (BR) ... 222

DRUCKER, D. C.
Hyperstatic structures, Vol. 1 (BR) ... 377

DUNKIN, J. W.
Earth motion beneath a prescribed boundary displacement ... 120
Elastic half plane subjected to surface tractions with random magnitude or separation ... 701

DURELLI, A. J.
Photoelastic approach to transient stress problems employing low-modulus materials (AC) ... 369

DYNAMICS. *See also* GAS DYNAMICS, IMPACT, STRUCTURES, VIBRATION
On a dynamical Saint Venant principle ... 74

E

EARTH MOTION. *See* PAVEMENT

ENCIOGLU, I. K.
Elastic instability of rectangular sandwich panel of orthotropic core with different face thicknesses and materials ... 474

ECKERT, E. R. G.
Compact heat exchangers (BR) ... 377

ECKERT, E. R. G. (author)
Heat and mass transfer (BR) ... 222

ELASTICITY. *See also* STRESSES AND STRAINS, VISCOELASTICITY
Contact problem for viscoelastic bodies ... 438
Dynamical response of an elastic half-space to tangential surface loadings ... 559
Elastic half plane subjected to surface tractions with random magnitude or separation ... 701

ELASTICITY (*continued*)
Free, transverse vibrations of a solid elastic mass in an infinitely long, rigid, circular-cylindrical tank ... 663
Graphical investigation of geometric aspects of the Herts problem ... 735
On Saint Venant's principle: elastic shells and plates ... 417
On the Airy stress functions of plane dislocation problems ... 423
